## New LED Lighting @ the Library:

Things are looking brighter at the Library with new LED lighting. The 9 pendulum lights and all of the florescent tube fixtures in the main portion of the Library have been replaced with energy efficient LED fixtures. This was made possible in part by a grant from the *Bremer County Community Foundation*. Because of this project the library has better-brighter lighting, will save energy, and decrease our utilities costs. A winning combination for today, tomorrow, and the future. Thank you to the Bremer County Community Foundation for your support in this project and our library!

## Looking For Information on the Internet?:

Sometimes it is difficult to determine if a website can be trusted or not. The Sumner Public Library's website has a tab labeled "Do Research". Here you will find links to trusted websites for all of your interests; from education to employment, state history to genealogy, and many more.

## Meet Libby for Bridges

Take just a few moments to download the NEW Libby App onto your kindle or smart device. It takes just a few taps to find and borrow a tittle. Libby has a ground-breaking ebook reader, and a beautiful audiobook player. It is compatible with Android and iOS devices, with Kindle Fire compatibility coming soon. Libby is great if you just want to download a book to your Android or iOS phone or tablet.
