SUMNER PUBLIC LIBRARY

Emergency Closing Policy

Sumner Public Library maintains a regular schedule of hours open to the public. However, at times, the library may have to close, shorten hours or cancel programs due to emergency conditions posing a safety hazard to the public and staff or prevent basic library functions.

The decision to close the library or cancel scheduled programs is based upon one or more of the following:

Weather:

A decision to close due to weather can be based on several factors, these may include:

- Severe weather.
- Road conditions that cause hazardous traveling.
- Projected forecast of worsening conditions.
- Conditions of the Library's parking lot and walkways.
- A State of emergency for the immediate area declared by local, county, or state law enforcement agencies.

Equipment Failure:

- Failure of vital building services: extended power failure, loss of water/sewer facilities, and condition of the building or its equipment.

Staffing:

- Availability of staff to operate the library. Minimal staffing level is defined as one staff member in the building with no scheduled programs.

Health and safety emergency in the community or area surrounding the library:

- Bomb threat, active shooter, fire, earthquake, gas leak, and exposure to an infectious disease.

The Library will not automatically close or delay opening based on any other institution's actions. The decision to close will be made by the library director. If the library director is unavailable, the senior librarian on staff will make the decision after conferring with a board member. Once the decision to close or to open late is made, the director will notify the staff.

Emergency closings are announced in as many ways as possible given the circumstances of the emergency and may include the library website, Facebook, signs on doors, announcement in local media and patron email accounts on record.

The freedom to know is the foundation of our democracy. Sumner Public Library strives to be an information center for the Sumner community to preserve and encourage the free expression of ideas essential to informed citizens. The Sumner Public Library Board of Trustees has adopted this Collections Policy to provide guidance for the selection and evaluation of materials which anticipate and meets the needs of the Sumner community.

Responsibility for selection

The Sumner Public Library Board of Trustees delegates authority for the selection of materials to the Library Director and those staff designated by the director.

Materials budget

The Sumner Public Library Board of Trustees develops an annual materials budget in consultation with the Director. This budget is certified by the Sumner City Council.

Selection guidelines and practices

The Sumner community includes people from diverse educational, cultural and economic backgrounds who display a variety of interests, needs, values and viewpoints. Librarians at the Sumner Public Library make selections based on a general knowledge of the subject and its literature, familiarity with the materials in the collection, an awareness of the selection tools for the subject, and recognition of community needs. The librarians apply professional standards and work within specific selection and review procedures.

Selectors recognize the importance of aware and effective citizens who are familiar with their heritage and with issues facing the community. The Sumner Public Library has adopted the role of a popular materials center. To fulfill this role, librarians select materials to serve the full range of ages, cultures, lifestyles, education, and reading skills of community citizens. The materials selected reflect the complex culture shared by the community. The collection includes diverse points of view and a choice of formats, treatments, and levels of difficulty. Librarians achieve a balanced collection through a diversity of materials, not an equality of numbers, working within constraints of budgets, availability, and space.

The collection is generally not archival, and items are expected to be used frequently.

Formats

Materials are purchased in the most appropriate format for library use. Books are generally purchased in hardcover editions because of their durability. However, paperback editions are preferred if the hardcover is expensive and the title would be used infrequently or is ephemeral or if it is the only format available. Library editions may be purchased because of their durability.

COLLECTION DEVELOPMENT

Sumner Public Library recognizes the place of non-print formats in the collection as legitimate educational and recreational resources for the community, including digital formats. The Library monitors the development of new formats and may add these to the Collection. The Library cannot afford to purchase and house all new formats.

Placement of materials

Sumner Public Library catalogers use the Dewey Decimal Classification system and Library of Congress subject headings to place materials in the proper subject area and to assign them to shelving categories. Librarians take into account age recommendations in reviews as they choose and classify materials. Sumner Public Library shelving areas are divided in sections such as Juvenile, Fiction, Reference, and DVDs for ease of use, but patrons of any age may use all sections of the library. It is the responsibility of parents or legal guardian, not Sumner Public Library staff, to monitor library use by minors.

Interlibrary loan

Interlibrary loan is a transaction in which Sumner Public Library borrows materials directly from another library on behalf of its customer, or another library borrows materials from Sumner Public Library on behalf of its customer. Interlibrary loan is not a substitute for collection development. It supports the mission of the Sumner Public Library by expanding the range of materials available to library customers without needlessly duplicating the resources of other libraries. In meeting patron needs, Sumner Public Library follows state and national interlibrary loan protocols. Items in frequent or recurring demand are considered for purchase.

Exclusions from collections

Sumner Public Library does not keep, acquire or purchase material that violates the legal definition of obscene material as defined by state statute.

No material will be excluded from selection because of the race, ancestry, place of origin, color, ethnic origin, citizenship, creed, sex, sexual orientation, gender identity, age, marital status, receipt of public assistance, political affiliation, disability, level of literacy and/or socio-economic status of the creator of the work.

Sumner Public Library generally does not buy items of a promotional nature, such as those advertised in infomercials.

The Sumner Public Library endorses the following American Library Association statements:

- **Library Bill of Rights**
- **Freedom to Read Statement**
- **Freedom to View Statement**

Selection aids

Sumner Public Library selectors rely on professional tools for selection. These may include but are not limited to: Booklist, Kirkus Reviews, Library Journal, Publisher's Weekly, New York Times Book Review, VOYA, School Library Journal, Horn Book, local newspapers, websites and award-winning lists.

COLLECTION DEVELOPMENT

Sumner Public Library patrons are encouraged to recommend purchase of library materials. These requests are evaluated using the selection criteria reflected in this policy. "Patron Request Forms" are available at the circulation desk.

Gifts

Sumner Public Library welcomes the donation of money and materials for the collection as outlined in the Library's "Gifts Policy". The library does not accept items for temporary or indeterminate periods of time. Once donated, items become property of Sumner Public Library, and at the discretion of staff may be given to other libraries and non-profit agencies, sold, traded, or discarded if they are not added to the collection. Donated items will not be returned to the donor and Sumner Public Library will not accept any item that is not an outright gift. Sumner Public Library reserves the right to decide when a gift added to the collection will be withdrawn.

Weeding

Circulating materials undergo an assessment over a three- year time period to make space for current materials, to make collections more attractive, to facilitate ease of use by customers and staff, and to reduce the damage to materials by overcrowding, space limitations, and overuse.

Weeding decisions are based on the following criteria:

- Currency
- Accuracy
- Low use based on analysis of circulation statistics
- Wear and damage
- Durability
- Changes in format
- Duplicated holdings with low demand
- Space limitations
- Community interest
- Availability from other libraries

Expressions of Concern

Sumner Public Library recognizes that some materials are controversial. Any item may offend some patrons. Sumner Public Library's role is to provide materials, which will allow individuals to freely examine subjects and make their own decisions. While patrons are free to reject for themselves materials that they do not approve of, they cannot exercise this right of censorship to restrict the freedom of access to others.

Selection of materials for the collection is based on the principles described in this policy rather than on the basis of anticipated approval or disapproval. Selection of any item does not constitute endorsement of the author's viewpoint nor does Sumner Public Library endorse particular beliefs or views.

Sumner Public Library materials will not be marked or identified to show approval or disapproval of their contents, and no library materials will be sequestered, except to protect them from damage or theft.

Responsibility for reading, listening and viewing of materials by minors rests with their parents or legal guardians. At no time will Sumner Public Library staff act in loco parentis (in place of parent).

COLLECTION DEVELOPMENT

Selection of library materials will not be inhibited by the possibility that they may be read or viewed by children. Parents are encouraged to accompany their children to the library to choose materials. The Sumner Public Library Director and the Board of Trustees are aware that patrons may take issue with the inclusion of any specific item in the collection and they welcome the expression of concern by our patrons. Patron concerns will be dealt with promptly and courteously as detailed in the following process:

1. Sumner Public Library staff will direct patrons to discuss their concerns with the Sumner Public Library Director.
2. The Library Director will discuss the material with the concerned individual or group.
3. After discussion with the Sumner Public Library Director, an individual or group still concerned about library material may submit an official statement to the Sumner Public Library Board of Trustees using the "Statement of Concern about Library Resources" form. The concern on the "Statement of Concern about Library Resources" form will be considered by the Sumner Public Library Board of Trustees at a regular meeting.
4. At the meeting, the individual or group may present their comments during the input from Sumner citizens.
5. The Sumner Public Library Board of Trustees will make a final ruling on the concern and send a written response to the individual or group.

Library Bill of Rights

The American Library Association affirms that all libraries are forums for information and ideas, and that the following basic policies should guide their services.

I. Books and other library resources should be provided for the interest, information, and enlightenment of all people of the community the library serves. Materials should not be excluded because of the origin, background, or views of those contributing to their creation.

II. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.

III. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.

IV. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.

V. A person's right to use a library should not be denied or abridged because of origin, age, background, or views.

VI. Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.

By the ALA Council

THE FREEDOM TO READ

The freedom to read is essential to our democracy. It is continuously under attack. Private groups and public authorities in various parts of the country are working to remove books from sale, to censor textbooks, to label 'controversial' books, to distribute lists of 'objectionable' books or authors, and to purge libraries. These actions apparently rise from a view that our national tradition of free expression is no longer valid; that censorship and suppression are needed to avoid the subversion of politics and the corruption of morals. We, as citizens devoted to the use of books and as librarians and publishers responsible for disseminating them, wish to assert the public interest in the preservation of the freedom to read.

We are deeply concerned about these attempts at suppression. Most such attempts rest on a denial of the fundamental premise of democracy: that the ordinary citizen, by exercising his critical judgment, will accept the good and reject the bad. The censors, public and private, assume that they should determine what is good and what is bad for their fellow-citizens.

We trust Americans to recognize propaganda, and to reject it. We do not believe they need the help of censors to assist them in this task. We do not believe they are prepared to sacrifice their heritage of a free press in order to be 'protected' against what others think may be bad for them. We believe they still favor free enterprise in ideas and expression.

We are aware, of course, that books are not alone in being subjected to efforts of suppression. We are aware that these efforts are related to a larger pattern of pressures being brought against education, the press, films, radio and television. The problem is not only one of actual censorship. The shadow of fear cast by these pressures leads, we suspect, to an even larger voluntary curtailment of expression by those who seek to avoid controversy.

Such pressure toward conformity is perhaps natural to a time of uneasy change and pervading fear. Especially when so many of our apprehensions are directed against an ideology, the expression of a dissident idea becomes a thing feared in itself, and we tend to move against it as against a hostile deed, with suppression.

And yet suppression is never more dangerous than in such a time of social tension. Freedom has given the United States the elasticity to endure strain. Freedom keeps open the path of novel and creative solutions, and enables change to come by choice. Every silencing of a heresy, every enforcement of an orthodoxy, diminishes the toughness and resilience of our society and leaves it the less able to deal with stress.

Now as always in our history, books are among our greatest instruments of freedom. They are almost the only means for making generally available ideas or manners of expression that can initially command only a small audience. They are the natural medium for the new idea and the untried voice from which come the original contributions to social growth. They are essential to the extended discussion which serious thought requires and to the accumulation of knowledge and ideas into organized collections.

We believe that free communication is essential to the preservation of a free society and a creative culture. We believe that these pressures towards conformity present the danger of limiting the range and variety of inquiry and expression on which our democracy and our culture depend. We believe that every American must jealously guard the freedom to publish and to circulate in order to preserve its own freedom to read. We believe that publishers and librarians have a profound responsibility to give validity to that freedom to read by making it possible for the readers to choose freely from a variety of offerings.

The freedom to read is guaranteed by the Constitution. Those with faith in free men will stand firm on these constitutional guarantees of essential rights and will exercise the responsibilities that accompany these rights.

WE THEREFORE AFFIRM THESE PROPOSITIONS:

1. It is in the public interest for publishers and librarians to make available the widest diversity of views and expressions, including those which are unorthodox or unpopular with the majority.

Creative thought is by definition new, and what is new is different. The bearer of every new thought is a rebel until his idea is refined and tested. Totalitarian systems attempt to maintain themselves in power by the ruthless suppression of any concept which challenges the established orthodoxy. The power of a democratic system to adapt to change is vastly strengthened by the freedom of its citizens to choose widely from among conflicting opinions offered freely to them. To stifle every non-conformist idea at birth would mark the end of the democratic process. Furthermore, only through the constant activity of weighing and selecting can the democratic mind attain the strength demanded by times like these. We need to know not only what we believe but why we believe it.

2. Publishers, librarians and booksellers do not need to endorse every idea or presentation contained in the books they make available. It would conflict with the public interest for them to establish their own political, moral or aesthetic views as a standard for determining what books should be published or circulated.

Publishers and librarians serve the educational process by helping to make available knowledge and ideas required for the growth of the mind and the increase of learning. They do not foster education by imposing as mentors the patterns of their own thought. The people should have the freedom to read and consider a broader range of ideas than those that may be held by any single librarian or publisher or government or church. It is wrong that what one man can read should be confined to what another thinks proper.

3. It is contrary to the public interest for publishers or librarians to determine the acceptability of a book on the basis of the personal history or political affiliations of the author.

A book should be judged as a book. No art or literature can flourish if it is to be measured by the political views or private lives of its creators. No society of free men can flourish which draws up lists of writers to whom it will not listen, whatever they may have to say.

4. There is no place in our society for efforts to coerce the taste of others, to confine adults to the reading matter deemed suitable for adolescents, or to inhibit the efforts of writers to achieve artistic expression.

To some, much of modern literature is shocking. But is not much of life itself shocking? We cut off literature at the source if we prevent writers from dealing with the stuff of life. Parents and teachers have a responsibility to prepare the young to meet the diversity of experiences in life to which they will be exposed, as they have a responsibility to help them learn to think critically for themselves. These are affirmative responsibilities, not to be discharged simply by preventing them from reading works for which they are not yet prepared. In these matters taste differs, and taste cannot be legislated; nor can machinery be devised which will suit the demands of one group without limiting the freedom of others.

5. It is not in the public interest to force a reader to accept with any book the prejudgment of a label characterizing the book or author as subversive or dangerous.

The ideal of labeling presupposes the existence of individuals or groups with wisdom to determine by authority what is good or bad for the citizen. It presupposes that each individual must be directed in making up his mind about the ideas he examines. But Americans do not need others to do their thinking for them.

6. It is the responsibility of publishers and librarians, as guardians of the people's freedom to read, to contest encroachments upon that freedom by individuals or groups seeking to impose their own standards or tastes upon the community at large.

It is inevitable in the give and take of the democratic process that the political, the moral, or the aesthetic concepts of an individual or group will occasionally collide with those of another individual or group. In a free society each individual is free to determine for himself what he wishes to read, and each group is free to determine what it will recommend to its freely associated members. But no group has the right to take the law in its own hands and to impose its own concept of politics or morality upon other members of a democratic society. Freedom is no freedom if it is accorded only to the accepted and the inoffensive.

7. It is the responsibility of publishers and librarians to give full meaning to the freedom to read by providing books that enrich the quality and diversity of thought and expression. By the exercise of this affirmative responsibility, bookmen can demonstrate that the answer to a bad book is a good one, the answer to a bad idea is a good one.

The freedom to read is of little consequence when expended on the trivial; it is frustrated when the reader cannot obtain matter fit for his purpose. What is needed is not only the absence of restraint, but the positive provision of opportunity for the people to read the best that has been thought and said. Books are the major channel by which the intellectual inheritance is handed down and the principal means of its testing and growth. The defense of their freedom and integrity, and the enlargement of their service to society, requires of all bookmen the utmost of their faculties, and deserves of all citizens the fullest of their support.

We state these propositions neither lightly nor as easy generalizations. We here stake out a lofty claim for the value of books. We do so because we believe that they are good, possessed of enormous variety and usefulness, worthy of cherishing and keeping free. We realize that the application of these propositions may mean the dissemination of ideas and manners of expression that are repugnant to many persons. We do not state these propositions in the comfortable belief that what people read is unimportant. We believe rather that what people read is deeply important; that ideas can be dangerous; but that the suppression of ideas is fatal to a democratic society. Freedom itself is a dangerous way of life, but it is ours.

FREEDOM TO VIEW

The FREEDOM TO VIEW, along with the freedom to speak, to hear, and to read, is protected by the First Amendment to the Constitution of the United States. In a free society, there is no place for censorship of any medium of expression. Therefore, we affirm these principles:

It is in the public interest to provide the broadest possible access to films and other audiovisual materials because they have proven to be among the most effective means for the communication of ideas. Liberty of circulation is essential to insure the constitutional guarantee of freedom of expression.

It is in the public interest to provide for our audiences, films and other audiovisual materials which represent a diversity of views and expression. Selection of a work does not constitute or imply agreement with or approval of the content.

It is our professional responsibility to resist the constraint of labeling or pre-judging a film on the basis of the moral, religious, or political beliefs of the producer or filmmaker or on the basis of controversial content.

It is our professional responsibility to contest vigorously, by all lawful means, every encroachment upon the public's freedom to view.

FREE ACCESS TO LIBRARIES FOR MINORS An Interpretation of the LIBRARY BILL OF RIGHTS

Some library procedures and practices effectively deny minors access to certain services and materials available to adults. Such procedures and practices are not in accord with the LIBRARY BILL OF RIGHTS and are opposed by the American Library Association.

Restrictions take a variety of forms, including, among others, restricted reading rooms for adult use only, library cards limiting circulation of some materials to adults only, closed collections for adult use only, and inter-library loan service for adult use only.

All limitations in minors' access to library materials and services violate Article V of the LIBRARY BILL OF RIGHTS, which states that, "The rights of an individual to the use of a library should not be denied or abridged because of his age..." Limiting access to some services and materials to only adults abridges the use of libraries for minors. 'Use of the library' includes use of, and access to, all library materials and services.

Restrictions are often initiated under the assumption that certain materials are 'harmful' to minors, or in an effort to avoid controversy with parents who might think so. The librarian who would restrict the access of minors to materials and services because of actual or suspected parental objection should bear in mind that he is not in loco parentis in his position as librarian. Individual intellectual levels and family backgrounds are significant factors not accommodated by a uniform policy based upon age.

In today's world, children are exposed to adult life much earlier than in the past. They read materials and view a variety of media on the adult level at home and elsewhere. Current emphasis upon early childhood education has also increased opportunities for young people to learn and to have access to materials, and has decreased the validity of using chronological age as an index to the use of libraries. The period of time during which children are interested in reading materials specifically designed for them grows steadily shorter, and librarians must recognize and adjust to this change if they wish to maintain the patronage of young people.

The American Library Association holds that it is the parent-and only the parent-who may restrict his children-and only his children-from access to library materials and services. The parent who would rather his child did not have access to certain materials should so advise the child.

The word 'age' was incorporated into Article V of the LIBRARY BILL OF RIGHTS as a direct result of a preconference entitled "Intellectual Freedom and the Teenager," held in San Francisco in June, 1967. One recommendation of the preconference participants was, "That free access to all books in a library collection be granted to young people." The preconference generally concluded that young people are entitled to the same access to libraries and to the materials in libraries as are adults and that materials selection should not be diluted on that account.

This does not mean, for instance, that issuing different types of borrowers' cards to minors and adults is, per se, contrary to the LIBRARY BILL OF RIGHTS. If such practices are used for purposes of gathering statistics, the various kinds of cards carry no implicit or explicit limitations on access to materials and services. Neither does it mean that maintaining separate children's collections is a violation of the LIBRARY BILL OF RIGHTS, provided that no patron is restricted to the use of only certain collections.

The Association's position does not preclude isolating certain materials for legitimate protection of irreplaceable or very costly works from careless use. Such 'restricted-use' areas as rare book rooms are appropriate if the materials so classified are genuinely rare, and not merely controversial.

Section B. Policy

Confidentiality is essential to protect the exercise of rights under the Constitution of the United States of America, the First and Fourth Amendments, United States Code, the Code of Iowa, and the Code of Ethics of the American Library Association

Confidentiality includes database search records, reference interviews, interlibrary loan records, computer use records, and all other personally identifiable uses of library materials, facilities, services, or security camera recordings.
2. The library will hold confidential the names of card holders and their registration information and not provide access for private, public, or commercial use.

The library Director will meet with the requestor of the information. The law enforcement officer must have a court order, a warrant, or other relevant legal document to receive the requested records. If the officer does not have a proper court order, warrant, or other relevant legal document compelling the production of records, the library Director will refuse to provide the information. The library director will not communicate with an unauthorized person prior to meeting with legal counsel.
3. ACCESS TO LEGAL COUNSEL:

If the records requested cover registration, circulation, or other records protected under the Iowa Code, and the Director is uncertain about whether the court order, warrant or other relevant legal document presented to the library Director is sufficient to require release of the records, the library Director may immediately consult with legal counsel to determine if the court order, warrant or other legal document is sufficient to require release of the records.
4. DEFECTS:

If any written request, process, order, or subpoena is not in proper form or does not otherwise appear to be sufficient to support releasing the records, the library Director shall insist that such defects be cured before any records are released.
5. RELEASE:

If the library Director or the Director in consultation with library's attorney determines that the court order, warrant, or other relevant legal document is sufficient and compels the release of the records, the library Director shall release the records.
6. GAG ORDER:

If the requestor is not a law enforcement officer and has not presented any type of court or administrative order requiring release of the requested information, the library Director shall refuse to provide the requested records.

8. FURTHER LEGAL ACTION.

The library Director is authorized to take legal action (such as moving to quash a subpoena) to resist releasing requested registration, circulation, or other records protected under the Iowa Code if the library Director and the library's legal counsel deem such action to be appropriate.

9. REPORTS FROM STAFF:

Any threats or unauthorized demands (i.e. those not supported by a written request, process, order, or subpoena) concerning circulation and other records identifying the names of library users shall be reported to the Director. Gifts, Memorials, & Donations

The Library acknowledges the great importance of gifts and donations to the Library's future growth and development. In recognition of such, the Library welcomes gifts of cash, securities, library materials, furnishings or real property. These gifts help enrich and improve the Library's resources.

Monetary Donations

There are two entities with the ability to receive private donations on behalf of the Library:

- Sumner Public Library – a department of Sumner's municipal government. Donations made directly to the Library support enhanced programming efforts, supplements the purchasing of materials and online resources. Donations made directly to the Library may not be transferred or donated to an agency or entity outside of City of Sumner financial control.
- Sumner Public Library Foundation – a 501(c)(3) non-profit organization. Donations to Sumner Public Library Foundation helps fund special projects and secures library services for future generations of library users. Monetary donations may be designated for a specific purpose upon approval of the Library Director.

Donation of Books and Other Materials

In accepting a gift of materials, the Library reserves the privilege of deciding whether items donated should be added to the collection. Out of the many books and other materials that citizens so generously give, a considerable number can be used. Some, however, cannot, because any material, though of value in itself, may be:

- A duplicate of an item of which the library already has a sufficient number.
- Outdated- (i.e., interesting but not of sufficient present reference or circulating value to the library)
- In poor condition, which would not justify the expense of processing it (i.e., cataloging and preparing it for circulation). The material will be judged by the same standards of selection as those applied to the purchase of new materials. The Sumner Public Library accepts gift books with the understanding that books that are useful to the library collection will be retained; books not considered useful will be disposed of in whatever manner the librarian deems best.

The Library necessarily reserves the right to interfile gifts with other collections on the same subject, so that all collections are organized and classified according to library standards for the best public service.

The Library does not accept magazines more than one year old, textbooks, encyclopedia sets, condensed books, materials in poor physical condition or books that are mildewed, dusty or soiled. The Library will not accept materials which are not outright gifts. The Library may accept special collections; however, the donor of any gift should understand that the Library reserves the right to assign the gifts to the appropriate section of the library, or to dispose of them in some other way, if they do not meet the library's selection criteria.

GIFTS, MEMORIALS, & DONATIONS

Memorials and Honorary Gifts

Materials may be purchased in memorial or honor of a friend or relative. The general nature of the book, or its subject area, will be based upon the interests of the honoree, the wishes of the donor, and the needs of the Library in accordance with the “Collection Development” policy. Memorial tributes will be identified by an inscription in the book or material, and notation made on the electronic record of the item.

Real Estate, Equipment, Furnishings, Etc.

Acceptance of donations of real estate, stock, equipment, artifacts, work of art, collections, etc., will be determined by the Library Board of Trustees or Foundation Board of Trustees based on their suitability to the purposes and needs of the library, law and regulations that govern the ownership of the gift.

Acknowledgement of Gifts

All gifts, other than donations of used materials, shall be acknowledged by a personal note to the donor from the Library Director or an appropriate representative of the library. In instances where the gift is in honor or memory of a third party or individual, a letter will be sent to the honoree or to his or her family to let them know about the tribute. A letter of acknowledgement goes to the donor as well.

Income Tax Statements

The Library cannot appraise the value of a donation of materials or art. It will, however, issue the donor a letter acknowledging the donation. It is the donor's decision whether he or she will determine the value of the donation or utilize an independent appraiser. While the gifts to the Library as a governmental unit qualify as tax-deductible, the donor will have to consider the particular circumstances of his or her situation for the specific effect.

SUMNER PUBLIC LIBRARY

American's with Disabilities Act (ADA) Compliance Policy

POLICY STATEMENT

The Sumner Public Library is committed to providing equitable access for persons with disabilities to library facilities and services in compliance with Section 504 of the Rehabilitation Act of 1973, applicable state and local statutes, and the Americans with Disabilities Act of 1990 (ADA). The ADA is the Civil Rights law affecting more Americans than any other.

The goal of the Compliance Policy is to provide a physically and educationally accessible environment that ensures an individual is viewed on the basis of ability, not disability through providing reasonable accommodations, in a confidential manner, in partnership with patrons and staff.

Implementation of this policy is the responsibility of all library staff

Accordingly, the Sumner Public Library WILL:

- Take appropriate steps to ensure that communications with applicants, participants, and members of the public with disabilities are as effective as communications with others.
- Make reasonable accommodations in policies, practices, or procedures when necessary to avoid discrimination on the basis of disability, unless a fundamental alteration in the operations of the library, and affiliated programs, would arise as a result,
- Operate its programs so that, when viewed in their entirety, they are readily accessible to and usable by individuals with disabilities.

WHO IS COVERED UNDER THE AMERICANS WITH DISABILITIES ACT?

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination on the basis of disability in all programs or activities that receive Federal financial assistance, including public libraries. Section 504 states:

“No otherwise qualified individual with a disability in the United States, as defined in section 7(20), shall solely by reason of his or her disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

An “individual with a disability” is someone with a physical or mental impairment that substantially limits one or more major life activities, or having a record of such an impairment, or being regarded as having such an impairment. Disabilities covered by legislation include hearing impairments, learning disabilities, psychiatric disorders, speech impairments, mobility impairments, and visual impairments.

WHAT IS A REASONABLE ACCOMMODATION?

There are three kinds of accommodations that are not considered reasonable:

1. It is not a reasonable accommodation if making the accommodation or allowing participation poses a direct threat to the health or safety of others
2. It is not a reasonable accommodation if making the accommodation requires making a substantial change in in the manner in which the service is provided; and
3. It is not a reasonable accommodation if it poses an undue financial or administrative burden on the City, Library, or its employees.

Generally, an accommodation is considered reasonable if it does not clearly fall under one of the three categories detailed above.

Despite the Library's best efforts, not all library materials may be available in accessible formats, not all areas of the Library are available to individuals with disabilities, and not every Library program, service and activity can be made accessible to every disabled person without fundamentally altering the nature of the service, activity or program.

HOW TO REQUEST A REASONABLE ACCOMMODATION

Persons who need an accommodation in order to receive the full benefit of a Sumner Public Library service, program, or activity should complete a "Reasonable Accommodation Request Form" Forms can be obtained at the circulation desk or by contacting the Library Director directly at Sumner Public Library 206 North Railroad Street, Sumner, IA 50674, (563) 578-3324. Library staff is available to assist patrons in the communication of an ADA request or completing the forms, if needed.

UNIVERSAL ACCOMMODATIONS

Beyond individualized accommodations; the Library is also committed to proactively providing perpetually available accommodations for patrons covered under ADA. Selection of library materials and programming content is prioritized with this goal in mind. Where available, reasonable, and cost effective, materials are purchased in formats suited to maximize usage by all our patrons.

Staff are always available to assist a patron with a disability in any reasonable way needed, including opening doors, carrying, retrieving library materials, completing library forms, etc. Impairment specific accommodations universally available to our disabled patrons currently include:

- ***For the visually impaired:*** Select materials are available in large print and audio formats.
- ***For the audibly impaired:*** Select materials, which, while normally available on CD, are also available in print. The Library also selects, when available, DVDs that are closed-captioned.

- ***For the verbally impaired:*** Staff will utilize various methods of communication including writing, pictures, and adapting oral communication styles to most effectively facilitate communicate with the patron.

POLICY NOTIFICATION

A copy of this Policy will be included with the Library's other policies. Notice of the Library's ADA services and of this Policy can also be obtained at the circulation desk.

If a person with visual impairment or other disability inquiries about this Policy or the Library's ADA services, staff will offer to read the policy and to provide appropriate ADA services.

DISCRIMINATION GRIEVANCE PROCEDURES

Persons who believe they are being discriminated against based on their disability should file an ADA Disability Grievance with the Sumner Public Library. The complaint should be submitted in writing to the Library Director on the applicable form (available at the circulation desk or by contacting the Library Director). The information requested on the complaint form includes the name, address, and telephone of the individual filing the claim, the disability and limitations requiring an accommodation, the names of all parties involved, the location, date and detailed narrative description of the alleged discrimination.

The ADA complaint should be submitted to the Library Director as soon as possible, but no later than 60 calendar days after the alleged ADA violation. ADA complaints will be brought to the attention of the Library Board of Directors before the next regular meeting following receipt of a completed complaint form.

Within 15 calendar days of receipt, the Library Director or designee will schedule a meeting with the complainant to discuss the alleged discrimination and possible resolutions; and within 15 days after such meeting, the Library Director or designee will respond in detailing the libraries position and options for resolution. The response will be in writing, or where appropriate, an alternative format accessible to the individual.

The complainant may appeal the decision to the Library Board if it is deemed unacceptable. In the case of appeals, both the Library Board and the Library Director will meet with the individual to discuss the allegation(s) and explore additional options to resolve the problem. A respond rendering a final resolution of the problem will be sent in writing (and, where appropriate, in a format accessible to the complainant) within 15 days of this meeting.

SUMNER PUBLIC LIBRARY

Volunteer Policy

Definition of a volunteer

The Sumner Public Library defines a volunteer as a person who commits their time for the betterment of the library. Volunteers will not be paid and do not take the place of library staff. All volunteers must adhere to the guidelines listed below.

Purpose

The main purpose for the Sumner Public Library's Volunteer program is to allow citizens ages 12 and up from the community to have opportunities to help enrich and enhance the library's mission and further their own personal and professional goals. This program is designed to help a person understand the importance of humanitarian effort, learn leadership skills, responsibility, job skills, and working in a team environment. It is the right of any citizen to volunteer at the library regardless of educational, religious background, sexual orientation, race, color, disability, and national origin to participate in volunteer activities.

Guidelines for Volunteers

1. Volunteers must fill out an application before they are allowed to volunteer at the library. The application will help library staff understand a volunteer's reason behind volunteering, their schedule, and any tasks they are interested in assisting with.
2. Volunteers between the ages of 12 and 17 must have written parental permission to volunteer at the library.
3. Volunteers must understand that a background check may be performed prior to starting any volunteer tasks.
4. Volunteers must abide by the policies, procedures, goals and services of the Sumner Public Library and must adhere to the same dress/hygiene code, rules of conduct, drug and alcohol, and sexual harassment policies as library employees.
5. Volunteers are to wear a library volunteer badge that identifies them as a volunteer while they are working at the library.
6. Volunteers are responsible for maintaining confidentiality of **all** library information and will be required to sign a confidentiality agreement form. Failure to maintain confidentiality will result in immediate termination of the volunteer.

Trustee Description & Application

Board members are expected to:

Attend board meetings and participate appropriately. Be familiar with materials sent out in board packets before the board meeting. Be informed about all phases of the library operation. Serve on committees as assigned by board chair. Actively participate in the workshops, activities, and support fundraising. Visit the library often and be acquainted with its services by using them. Be an advocate for the library.

Responsibilities:

1. To advocate for the library in the community. To be a library advocate is to work for the betterment of library services for the community. Advocacy includes working to obtain adequate funding for the library; pursuing opportunities to meet and speak with community groups; getting to know the mayor and city council; making sure the community's needs and interests are paramount when making board decisions.
2. Plan for the future of the library. Planning is one of the most important trusts that the community gives to the library board. Planning is deciding what is going to happen with library. It is taking charge of the library's future and creating it to be responsive to what the community needs.
3. Monitor and evaluate the overall effectiveness of the library. The community puts its trust in the library board to make sure the library is operating the way it should. For example, the library board is familiar with the library's budget - where the money is coming from and how it will be spent. The board monitors monthly financial reports and approves the bills so they can be paid. The board also helps determine whether the community is satisfied with the service received from the library.
4. Set library policies. The library board spends much of its time on policy issues - developing policies and monitoring the effectiveness of those policies. (Policy is a carefully designed, broadly stated, written guideline for actions and decision of the library.) Once adopted by the board, library staff carries out the policies on a day-to-day basis.
5. Hire and evaluate the library director. The board hires a qualified director to manage the day-to-day operations of the library and works with the director, carefully respecting each other's roles. The board also regularly evaluates the director to make sure the library operates well and in the best interest of those the library serves.

Library Trustees are appointed by the Mayor and confirmed by the Sumner City Council (city residents) or Bremer County Board of Supervisors (rural Bremer County residents). There is no monetary compensation for this position. Trustees serve a six-year term.

The Sumner Public Library Board of Trustees meets on the third Thursday of each month at 8:00 a.m. Special meetings are sometimes called, and committee meetings are held in addition to Board meetings.

Introduction

In August 2019, The Sumner Public Library Board of Trustees initiated the Strategic Planning Process for the City of Sumner, Iowa. The Library Board wanted the plan to reflect the needs of the community as a whole, so they formed a Community Planning Committee of 23 individuals. This committee worked to envision the future of the city and provide direction for the library's operations for the next five years.

Throughout the planning process, Eunice Reisberg of Iowa Library Services facilitated committee and Board meetings and provided expertise. She utilized the Public Library Association's Planning for Results model, specifically by using the 2008 edition of Strategic Planning for Results.

During the first portion of the Community Planning Committee meeting, the members discussed the current strengths and weaknesses of Sumner and envisioned what they would like the city to be like in the future. This in turn created a list of needs that would need to be addressed in order to fulfill these aspirations.

During the second portion of the Community Planning Committee meeting, the members reviewed the list of needs they created and discussed ways in which the Sumner Public Library could provide services to satisfy those needs, listing the top five service areas for the Library to focus on.

The Library Board of Trustees formed a consensus on three top service areas where they thought the library should focus:

- Satisfy Curiosity: Lifelong Learning
- Create Young Readers: Early Literacy, Viewing
- Know Your Community: Community Resources and Services

The Trustees then used these service areas as the basis to create this strategic plan. The plan outlines goals and objectives that will help library staff meet the needs identified during the committee meetings. The Sumner Public Library Strategic Plan is designed to accomplish the goals described by the community committee members.

Library Use by Sex Offenders Against Minors Procedure

The State of Iowa has established a law preventing convicted sex offenders against minors from using public libraries and other local entities where children are likely to be present.

Under this law, sex offenders are divided into Tiers, and those in specific Tiers may be prevented from using the library. It is important to understand that the law does not keep all registered sex offenders from using public libraries.

The law also states those sex offenders who are prevented from being at the library may visit it if they have written permission from the library's administration. Any sex offender seeking such permission from the Sumner Public Library must obtain it from the Library Director. See "Library Access Application" in the Sumner Public Library Policy Manual. If such permission is granted, it will be on library letterhead with the Library Director's signature. Access may be limited to a certain date and time, and it may, for example, require the sex offender to be under the direct supervision of a law enforcement officer.

If library staff believes a sex offender is using the library, the staff member should inform the Library Director or the most senior staff member on duty of the situation. Library staff should not confront the individual directly. Library staff should not attempt to become familiar with all the sex offenders in the area by utilizing on-line registries, or to enter any information pertaining to sex offenders into the library's patron database. Mistakenly identifying and/or accusing someone could lead to serious problems.

If a patron approaches a library staff member and reports another library user as a sex offender, the staff member should inform the Library Director or the most senior staff member on duty of the report. The Library Director or the most senior staff member on duty will instruct the patron to contact the police department. If the patron refuses to do so, the Library Director or to the most senior member of the staff on duty will relay the information obtained from the individual reporting the alleged sex offender to the police to be properly investigated.

Sex offenders prevented from being on the library premises are still eligible for library services. In this situation, a sex offender would be issued a library card. They would be able to use the card to access the library's resources remotely by telephone or email, or by surrogate.

"Library" shall be defined as the library building, the sidewalk/grounds surrounding the library building, the parking lot or any off-site location in use by the Library.

Note: These are administrative guidelines. This is not a Library Board policy.
